

ABSTRACT

Insight Industries Applications of Industrial
Engineering in the Software Industry. (May 1993)

Thomas E. Holland, Jr., B.S., University of Tennessee

M.S., University of Tennessee

Chair of Advisory Committee: Dr. Mildred J. Fox, Jr.

An internship with Insight Industries, Incorporated is discussed. The efforts of the company to expand its business base and to strengthen its software avionics process are discussed. Specifically, work toward developing an initial marketing effort for Industrial Engineering services is described. Further, a study of various software measures for determination of a suitable verification estimator is presented. Finally, work by the intern in developing a project scheduling model for software verification is detailed.
